Durable two-layer construction resists crushing from day-to-day handling. Solid, non-permeable sidewall resists seepage, which can occur over time with the open-sidewall construction of beaded foam. Rolled rim offers upscale, paper-like image. Lugs provide improved stackability and nesting. Foaming materials used have low Global Warming Potential (GWP) and no Ozone-Depleting Potential (ODP). Does not contain BPA. Trophy® uses less material than paper or non-foamed plastic cups (Trophy is 70% air). Eliminates waste of using a cup sleeve or double cupping.

PRESSWARE® CLASSIC STONEWARE™ DUAL-OVENABLE TRAY

PACTIV

Dual-ovenable paperboard trays can be used in microwave or conventional ovens at temperatures up to 400°F for up to 60 minutes. For hot and cold food applications. They can be stored in a freezer or refrigerator without cracking or denting, and are ideal for freezer to oven cooking applications. Upscale structural design, along with color and graphics capabilities offer excellent merchandising opportunities for high visual impact. There are two closure options; clear OPS dome lids or peelable film (plastic dome lids are not to be used in microwave or conventional ovens). In the microwave oven, heating is enhanced because Pressware® trays are transparent to microwave energy and cooking hot spot areas are reduced with rounded radius corners and bottoms.
