## Paging through a document

You can navigate in Adobe PDF documents by paging through them and by using links, bookmarks and thumbnail pages. You can also retrace your steps to return to where you started.

### Navigation Controls

**A.** First Page **B.** Previous Page **C.** Current Page **D.** Next Page **E.** Last Page **F.** Previous View **G.** Next View

### Keyword Search

Activates the Find command to find a complete word/part # or part of a word/part#.

Please note that in newer versions of Reader the Find command does not launch a dialogue box, but instead activates the Find toolbar.

### Navigating with Links:

Clicking a link in a PDF is like clicking a link on a website. To follow a link:

Select the hand tool , a zoom tool , or a selection tool .

Position the pointer over the item until it changes to a pointing finger hand  and click.

### Magnifying and Reducing the Page View

The toolbar and status bar offer several methods for magnifying your view.
