How to Use This Catalog

- **Products are presented in a logical pattern for easy navigation**

- **Table of Contents** lists all the product groups
- **Product-Specific Index** sends you directly to its listing in the catalog
- **Vendor Numeric Index** shows where all that manufacturer's products are listed in the book and also shows our codes

Specific products are listed smallest to largest where applicable

Headers on every page

Frequent Subheads to keep like products together

Product images are alpha coded for easy identification

Our item numbers are printed in bold

Manufacturer numbers are printed in light italic

Descriptions provide general information, selling points, specific product usage and case packs

Two Modular Divisions
JS for Jan/San and
FS for Food Service

HIDDEN COST SAVING OPPORTUNITY

Don't let
inventory costs
put the "freeze"
on your growth.

DEPENDABLE. FLEXIBLE. FOCUSED.

R3 can help reduce the "iceberg" of acquisition costs that freezes up capital.

Why tie up your capital in inventory and its management, when you can order from us only what you need, when you need it? You'll enjoy faster inventory turnaround times, freeing up warehouse space and reducing costly wastage.

We'll take care of the logistics and transportation for you, for increased supply chain efficiency. The bottom line is we help you reduce the cost of possession, to help improve your company's bottom line.

R3 RELIABLE REDISTRIBUTION RESOURCE

GREEN – has become one of the biggest buzzwords in today's packaging and cleaning industries. Consumers are demanding green products and distributors are searching for sources for green product inventory. This catalog has been developed for environmental responsibility through the implementation of green practices.

What is Green?

"Chief" Seattle of the Duwamish tribe of Puget Sound Indians, more than 150 years ago, poignantly told us "...the earth is our mother. Whatever befalls the earth befalls the sons of earth. The earth does not belong to man; man belongs to the earth. Man did not weave the web of life; he is merely a strand in it. We do not inherit the earth from our ancestors; we borrow it from our children."

Green is an environmental term defined as "products or services that have a lesser or reduced effect on health and the environment when compared with competing products or services that serve the same purpose." ¹ Green is a comparative term. For instance, green cleaning products are effective at cleaning, but have a reduced negative impact on the environment when compared to non-green products.

Green cleaning can reduce your costs, since it reduces the non-renewable resources required to maintain a clean environment. This leaves more resources available for future generations, as well as lowering consumer health risks due to dangerous by-products which can be left behind when traditional cleaning products are used.

In short, green cleaning is cleaning that creates a safer, healthier environment for people, while lowering the risk of negative environmental impact.

When discussing Green products, what is meant by...

Sustainability - Sustainability is the concept that describes man's ability to create a world for humans and non-humans that provides for the needs of all environmentally, socially and economically without damaging the ability of future generations to take care of themselves.

Biodegradation - Biodegradation is the process by which organic substances break down naturally into carbon dioxide, water and organic matter as a result of exposure to micro-organisms. To biodegrade the material must be exposed to moisture, heat and micro-organisms. The time required to "degrade" or return to its natural (safe) state depends on how much exposure the material has to the three required factors, as well as its size and type.

Composting - Composting is the controlled biological decomposition of organic material, such as yard wastes or food, into a soil like material called humus. Composting is nature's way of recycling organic waste into new soil which can be used in flower or vegetable gardens, landscaping and other applications.

R3 REDUCE REUSE RECYCLE

Reduced - A product or package that uses a smaller volume of resources than another similar product or package is "reduced".

Reusable - Products that are durable, designed to be used over and over again rather than being "disposable" after a single use are "reusable".

Recycled - When products or materials that would otherwise have been waste (post-consumer or post-industrial) are broken down (melted or pulped) into a basic substance from which new products can be formed, they are "recycled". Products that can be collected and made into new products are "recyclable".

The R3® Commitment

As a firm committed to environmental awareness and responsible (green) practices, R3 Reliable Redistribution Resource® is cognizant of our actions and how they impact the environment around us. Our goal is to maximize your satisfaction with the services we provide, while constantly exploring ways to improve our performance.

We proactively search for ways to upgrade our business processes and procedures in order to reduce any harmful effects our activities may have on our planet.

For example, R3 Reliable Redistribution Resource® is committed to reducing our consumption of fossil fuels. This is being implemented through coordination of delivery schedules at our strategically located facilities across the North American continent. Because we stock thousands of products from multiple manufacturers, you can order your inventory from multiple vendors through a single source. This allows you to receive more manageable quantities during expected delivery times.

More efficient, less frequent deliveries from multiple manufacturers offers the following benefits:

- Access to a larger inventory for improved customer service: You can offer the products customers are demanding most, when they are buying
- Reduced costs/management time required for handling inbound freight receipt and put-away
- Improved utilization of warehouse space and inventory levels
- Lowered labor and administrative costs
- Reduced fuel consumption required when deliveries are made
 - a) This leaves more fuel, a non-renewable resource, available for the future
 - b) Reduced truck emissions into the atmosphere, slowing the greenhouse effect on the environment

R3 Reliable Redistribution Resource® also seeks out vendor partners who strive to improve their offerings while reducing their impact on the environment. For example, we look for those who use innovative solutions to implement green practices, such as:

- Reduction in shipping unit size and the amount of raw material used to produce their product and package (for example, by using Bag-In-A-Box for packaging liquid products)
- Using the CleanGredient™ database as a resource to create environmentally friendly products

At the branch level, R3 Reliable Redistribution Resource® engages in recycling programs to help reduce the amount of waste that could end up in landfills while at the same time reducing the need for consuming raw materials, such as wood from trees, in order to produce paper.

From offering products, information and support to help you and your customers establish green clean programs, to personally making corporate choices that reduce the negative environmental impact we have on our world, R3 Reliable Redistribution Resource's® goal is to be your source for green products.

How Do I Get Started?

There are numerous resources to gain information on how to begin a green cleaning program. One well-written green cleaning guide is Green Cleaning for Dummies by Stephen Ashkin and David Holly (Wiley Publishing, Inc. 2007) available through the International Sanitary Supply Association (ISSA).

Briefly, to begin a green cleaning program, you will want to:

- a) Gain agreement among the key people within your organization who will have a stake in your program that the program is necessary. This includes establishing what the program is expected to accomplish.
- b) Examine your facility and determine its current condition as a starting baseline.
- c) Review your current facility cleaning practices and see where changes can be made to reduce waste, environmental impact and exposure to potentially harmful chemicals, while at the same time increasing the efficiency of the cleaning process.
- d) Search for sources for chemicals, supplies and equipment that will allow you to move towards a greener state.
- e) Ensure that all involved members of your organization understand the purpose of the green cleaning program, how this will affect them and what their role in helping to accomplish the program goals is.

Going green is not an all or nothing proposition, but a continuum of steps that can be implemented either one at a time, or in concert. These steps include:

Reducing Waste – This not only improves your bottom line, it helps the environment. For example, making sure your cleaning staff uses traditional cleaning products properly and in the proper amounts can move you towards a "greener" state. Implementing recycling programs can also improve your green state – it not only reduces the amount of waste you generate, but may even become another income source.

Changing Procedures – Shifting the emphasis on the cleaning process from speed to maintaining a healthy environment is an important part of a green cleaning program.

Staff Training – Managers must themselves understand best practices in order to achieve their green cleaning goals, and to communicate these practices to their staff. R3 Reliable Redistribution Resource® can assist you with this. We have the knowledge, information and staff expertise to provide you with onsite instruction on how to properly use the products you purchase from us.

Certification – Like the green products being used, cleaning crews and housekeeping staff – even facilities themselves – can be awarded green clean certification by meeting specific standards established by third party groups and following governmental guidelines.

Switching from Traditional Cleaning Products to Green Ones – This is one of the most important changes a cleaning crew can make. This can include switching to products made from recycled paper, no-VOC chemicals, high filtration vacuums, microfiber wipes and mops. Each of the above items works as well as traditional products, and R3 Reliable Redistribution Resource® offers a wide selection of these and other green products in the catalog pages that follow.

To assist you with green product selection, products from our suppliers in our catalog that are certified green will have a green certification or label that identifies its certifications. For your convenience, we have provided a list of the certifying organizations in the back of our catalog.

People spend the vast majority of their time indoors and the quality of the indoor environment impacts their health and well being. The care we give to that indoor environment affects not only the people in that environment, but the facility itself. The more steps taken to insure the environment is a healthy place to be, the cleaner the building and all its parts will be. This extra care will allow for the facility to last longer as an attractive, comfortable place to be.

R3 Reliable Redistribution Resource® can help you help your customers reach their green goals. For more information please review the products listed in our green products catalog or contact your R3® sales representative. We will be glad to answer any questions you might have.

Our Goal, as always, is to be your Total Solution Provider!

R3® GREEN INITIATIVE SUMMARY SHEET

Products

- ☐ Sorting through the manufacturers for true green products.
- ☐ Determining manufacturers who are sustainable in their operations.
- ☐ Assisting manufacturers in source reduction efforts.
- ☐ Encouraging and setting up recycling solutions for customers.
- ☐ Determining true green products.

Warehousing

- ☐ Reclaiming all cardboard and plastic waste and putting into the recycling stream.
- ☐ Reduction of energy costs with state of the art lighting and motion detectors.
- ☐ Utilizing low operating cost, clean air electrical forklifts and pickers.

Transportation

- ☐ Constant routing changes to insure efficient trips and fuel consumption reduction.
- ☐ Consolidation of major suppliers lines on behalf of our customers for one stop shopping.
- ☐ Reduction of associated intangible costs (separate purchase orders, invoices, checks, multiple phone calls) for our customers with a full line assortment.
- ☐ Consolidation and source reduction by dealing in truckload shipments from our suppliers into our facilities.

Environment

- ☐ Dealing in environmentally friendly products.
- ☐ Operating clean low cost efficient distribution centers.
- ☐ Reduction of our carbon footprint on the environment.
- ☐ Working with our manufacturers on source reduction efforts in packaging and their internal operations.

GREEN Position Statement R3 Reliable Redistribution Resource®

Awareness of the environment and how to reduce our impact on it is a primary goal of R3 Reliable Redistribution Resource®. We therefore are always reviewing our environmental programs and looking for ways to improve our performance in this area.

At R3®, we continually focus on sourcing and finding the packaging alternatives you need to support you and your customers' green efforts. Whether it's food service packaging or green chemicals that have less of an impact on the environment, R3® is your source. We have combed the product offerings of our manufacturers to ensure we have true green products available to you. These products fall into three major categories: 1) products that are recyclable; 2) products that are from manufacturers utilizing sustainable practices in product production (thus embracing associated source reduction efforts); and 3) products that are "green".

Corporately, the major environmental impacts we hope to make include the management of waste—meaning what we produce ourselves and what our suppliers produce when creating and packaging their products—our use of energy and the consumption of fuel to transport products from vendor to us and from us to our customers.

Our branches are engaged in the recycling of paper and plastics. We believe the more we can recycle, the less non-renewable resources we take from the environment, the less energy we use to create new products from virgin resources, the less we contribute to the filling of landfills, and the lesser effect we have on the environment.

The company is also piloting a comprehensive program at several of our larger warehouses to recycle all plastic pallet wrap and cardboard on our incoming inventory. This will reduce our own internal waste and provide input material for U.S. manufacturers.

While most current warehouses in the country use metal halide lights that take several minutes to come to full power when turned on and stay burning all day long, our warehouses are turning to new technologies. This includes utilizing bright fluorescent lights that use less electricity. These are being combined with motion detectors to manage our energy use in a cost-efficient way. The warehouses where this new system is in place are reporting reductions of 30% in kilowatt usage.

R3® places a major focus on the efficient use of fuel by carefully managing our national fleet of trucks. We have implemented a vehicle tracking system that helps us reduce engine idling time, thus reducing fuel consumption. We have worked with our customers to develop a schedule of deliveries that serves not only their need for timely deliveries, but allows us to make deliveries in the most expedient, fuel efficient way possible. It provides our customers the ability to consolidate the procurement and delivery of a broad range of products, reducing the number of deliveries they receive when sourcing their needs.

Fuel consumption reduction is also considered when evaluating the vendors with whom we do business. Those vendors who have reduced their case sizes so their products can be shipped more economically are among our preferred suppliers.

Collectively, we source environmentally friendly products for our customers. Working with our business partners, our customers and vendors to reduce our mutual impact on the environment is an important R3 Reliable Redistribution Resource® business goal.

B. STATESMAN COMPOSTABLE CUTLERY

WNA COMET

Our compostable line of products is an ecologically sound and practical choice. Earthsense™ offers superior performance and appearance vs. other "green" disposable products. Meets ASTM D6400 for biopolymers. Also compost using Cedar Grove's stringent test methods. Heavyweight.

12200149	<i>CGFB420605</i>	Spoon, Brown	600/cs.
12200150	<i>CGFB410605</i>	Fork, Brown	600/cs.
12200148	<i>CGFB430605</i>	Knife, Brown	600/cs.

C. MALIBU COMPOSTABLE CUTLERY

WNA COMET

Mediumweight disposable cutlery. Meets ASTM D6400 for biopolymers. Also compost using Cedar Grove's stringent test methods.

12200194	<i>CGFB120165</i>	Spoon, Brown	600/cs.
12200195	<i>CGFB120265</i>	Fork, Brown	600/cs.
12200189	<i>CGFB120365</i>	Knife, Brown	600/cs.

COLD & HOT CUPS

D. HARVEST COLLECTION™ COLD DRINK CUP

GENPAK

Compostable dinnerware item for foodservice applications. Produced from environmentally friendly, annually renewable resources.

34789234	<i>HCC16</i>	16 oz., Harvest Tan	20/50/cs.
-----------------	--------------	---------------------	-----------

E. NATURE FRIENDLY®

PLA COLD CUPS

NATURE FRIENDLY PRODUCTS

Nature Friendly Products' compostable PLA cold cups provide consumers with an eco-friendly alternative to traditional disposables. Made from sugar cane bagasse-based renewable resources, they are completely compostable within 50-100 days in home and commercial composting facilities. Superior in strength and performance. Non-toxic, hot/cold tolerant, oil and water resistant, microwave and freezer safe.

C6938003	<i>PLA98540</i>	16 oz.	1000/cs.
C6938004	<i>PLA98650</i>	22 oz.	1000/cs.
C6938012	<i>L988K</i>	Flat Lid, Fits 16/22 oz.	1000/cs.
Retail Pack			
C6930003	<i>GC16SR</i>	16/18 oz., Retail Pack	1000/cs.

F. BARE™ RECYCLED COLD CUPS

SOLO®

Bare™ cups are made from 25% post-consumer recycled plastic, helping reduce new materials being created from earth's resources. Our cups can be recycled in most communities that accept plastic water bottles, further enriching the stream of recycled materials that can be used to make more Bare™ cups as well as lots of other things, such as carpets, laundry scoops, shoelaces, and much more. Strong and clear, Bare™ cups display the same quality our consumers have come to expect from Solo's conventional clear cups. Bare™ by Solo®: Bringing Alternative Resources for the Environment.

18201013	<i>RTP16J9036</i>	16 oz., Bloom, RPET Plastic	5/200/cs.
18201001	<i>RTN20J9036</i>	20 oz., Bloom, RPET Plastic	5/200/cs.
18200998	<i>RTD24J9036</i>	24 oz., Bloom, RPET Plastic	5/120/cs.

Cold & Hot Cups/Straws

A. EARTHCHOICE™ PLA CUPS & LIDS

PACTIV

Made from a natural plastic material called Ingeo™, an ingenious new material made from plants instead of oil. This means that Ingeo™ is 100% annually renewable and EarthChoice™ cups and lids are fully compostable in municipal and industrial facilities.

16202563	YLSPLA3	Lid, Fits 3 1/4 and 4 oz.	2400/cs.

B. SOUFFLÉ CUPS & LIDS TRELLIS EARTH

Perfect for showing you care about saving the environment across your entire food line.

C4780044	WFR05	2 oz.	2500/cs.
C4780041	WFR07	4 oz.	2500/cs.
C4780037	WFR06	Lid Fits 2 oz.	2500/cs.
C4780039	WFR08	Lid Fits 4 oz.	2500/cs.

C. EARTHCHOICE™ HINGED LID CONTAINERS PACTIV

Fiber Blend

Fiber blend hinged lid containers meet the ASTM D 6868 standards for compostability. Made of a blend of fiber and pulp materials. Double tab lock keeps container securely closed. All natural white provides a brilliant, white exterior. Stackable. Soak-through resistant design resists grease, moisture and helps eliminate messy leaks.

16200422	MCH0080	6" x 6" x 2 3/10", Sandwich 1-Compt.	500/cs.
16200357	MCH0801	8 1/10" x 8 1/10" x 2 1/10", Medium 1-Compt.	200/cs.

Food Trays

A

A. BIO-PLUS® EARTH FOOD CONTAINERS

FOLD-PAK

Made from 100% recycled paper using 35% or more post-consumer recycled paper. Bio-Plus Earth is processed chlorine-free and performs as well as our Bio-Pak product. It reduces the amount of packaging you use because it can hold any type of food from hot, cold, wet, or dry food products. Bio-Plus Earth is endorsed by the Green Restaurant Association and the endorsement logo is printed on the bottom of every container.

PAN LINER

D. ECO-BAKE PAN LINER

BAGCRAFT

Comparable to a silicone grease-proof baking sheet but without the chromium. Manufactured from chlorine-free pulp. Excellent heat retention for baking of high moisture items; can be used at temperatures up to 425°F. Printed, 100% recycled.

16400180 030010 16¾" x 24¾", Medium Temperature 1000/cs.

All Purpose Cleaners & Degreasers

ALL PURPOSE CLEANERS & DEGREASERS

A. ENVIRO PATROL OXIDE2

CARROLL

Multi-surface cleaner, deodorizer and stain remover. Fortified with hydrogen peroxide. Couples and organic solvent derived from orange and citrus peels with hydrogen peroxide, creating a cleaning solution with unequalled ability to dissolve and emulsify soils of all types. Absolutely superior cleaning ability without the use of a petroleum solvent or glycol ethers (butyl cellosolve). It penetrates and emulsifies for easy removal of oils and soils from any washable surface. The hydrogen peroxide cleans stains and takes odor away - safely and instantly. Dilutes at 2 oz./gal. (1:64) for most applications. Cold water effective.

30010196	19623	1 qt. RTU, Low Human Toxicity	12/cs.
30010197	19628	1 gal., Low Human Toxicity	4/cs.

B. ENVIRO PATROL HEAVY-DUTY CLEANER

CARROLL

A high performance, extra strength heavy-duty cleaner and degreaser for the toughest of cleaning jobs, from the kitchen to the industrial plant. Replaces conventional kitchen and industrial cleaner/degreasers with an effective environmentally preferable alternative. Quickly removes petroleum-based soils including motor oil, lithium grease, lubricant oils, hydraulic fluid and stamping oil. Use for spray-on/wipe-off cleaning, mop and bucket, automatic scrubbing, pressure washer, or manual cleaning procedures. Dilutes at 1 oz./gal. (1:128) for most applications. This product has been 3rd Party Certified by Green Seal® according to GS-37 Environmental Standard and is recognized by the U.S. Environmental Protection Agency Design for the Environment (DfE) Formulator Initiative for its improved environmental and human health characteristics. Cold water effective.

30011982	19828	1 gal., Green Seal® (DfE)	4/cs.
-----------------	-------	---------------------------	-------

C. ENVIRO PATROL MULTI-PURPOSE CLEANER

CARROLL

Use as a high performance multi-surface cleaner, daily non-alkaline floor cleaner, scrub/recoat detergent, window cleaner, washroom cleaner, odor neutralizer, tile/grout cleaner and brightener, and carpet care product. Dilutes at 1 oz./gal. (1:128) for most applications. This product has been 3rd Party Certified by Green Seal® according to GS-37 Environmental Standard and is recognized by the U.S. Environmental Protection Agency Design for the Environment (DfE) Formulator Initiative for its improved environmental and human health characteristics. Cold water effective.

30018528	18528	1 gal., Green Seal® (DfE)	4/cs.
-----------------	-------	---------------------------	-------

D. ENVIRO PATROL GLASS & SURFACE CLEANER

CARROLL

Use as a high performance glass and utility cleaner. It can be used as a spray and wipe glass cleaner or with a sponge and squeegee. Leaves no residues. Helps prevent resoiling. Use on Plexiglas®, windows, windshields, walls, countertops, cabinets, partitions, light fixtures, stainless steel, chrome, plastic, vinyl and other hard surfaces not harmed by water. Dilutes at 1 oz./gal. (1:128) for most applications. This product has been 3rd Party Certified by Green Seal® according to GS-37 Environmental Standard. Cold water effective.

E. GREEN WORKS™ NATURAL ALL PURPOSE CLEANER

COLORX

From the kitchen to the bathroom, our natural all purpose cleaner cuts grease, grime and dirt as well as traditional cleaners. But because it's made from plants and minerals it leaves no harsh chemical fumes or residue. Performs as well as the leading conventional cleaner. Safe on counters, appliances, stainless steel, sealed granite, chrome, cook top hoods, sinks and toilets. Ready-to-use formula.

38380456	00456	32 oz.	12/cs.
38380457	00457	64 oz., Refill	6/cs.

F. GREEN WORKS™ NATURAL DILUTABLE CLEANER

COLORX

Works on grease, grime and dirt. Is safe on multiple surfaces throughout the kitchen and bathroom, including non-wood floors, counters, sinks, stoves, garbage cans and toilets. Performs as well or better than the leading conventional cleaners. Dilutable formula (concentrate).

38380458	00458	32 oz.	6/cs.
-----------------	-------	--------	-------

All Purpose Cleaners & Degreasers

A. MURPHY® OIL SOAP

COLGATE-PALMOLIVE

Economical, natural cleaner is ideal for mopping wood floors, paneling and other large wood surfaces. Naturally cleans finished and hard surfaces. EPA DfE approved formula.

11901101	01101	16 oz.	12/cs.
11902106	01106	32 oz., Concentrate	32 oz.
11900103	01103	1 gal.	4/cs.

B. AJAX® SCOURING CREAM CLEANER

COLGATE-PALMOLIVE

No harsh abrasives. Fresh lemon scent. Perfect for modern surfaces; polishes and destains to keep surfaces looking new. Especially effective on vertical surfaces.

11901170	04941	24.5 oz.	9/cs.
----------	-------	----------	-------

C. FABULOSO® ALL PURPOSE CLEANER

COLGATE-PALMOLIVE

Cleans and leaves a long-lasting fresh scent. Effective for a wide variety of cleaning applications. Advanced technology formula penetrates deep into surface to capture grease and soils. Neutral pH makes product safe for people and surfaces. No alkaline builder to leave a residue. No-rinsing step needed in floor cleaning applications. All cleaning agents are compostable. Bilingual labeling.

11904307	04307	1 gal., Lavender	4/cs.
11904373	04373	1 gal., Ocean Cool	4/cs.

D. SIMPLE GREEN® ALL PURPOSE CLEANER/DEGREASER

SIMPLE GREEN

Versatile all purpose cleaner is non-toxic and compostable, without harmful bleach or ammonia. Because it is a concentrate, you can use Simple Green full strength or add water to clean just about anything.

73433016	13006	5 gal.	1/ea.
----------	-------	--------	-------

E. SIMPLE GREEN® CLEAN BUILDING™ ALL PURPOSE CLEANER CONCENTRATE

SIMPLE GREEN

Formulated for cleaning all water-safe hard surfaces. Concentrate offers economical dilution, and with no fragrance or volatile organic ingredients, it doesn't adversely impact indoor air quality. Green color makes it easily identified when diluted into secondary containers. Non-toxic, compostable, non-caustic, and non-flammable. Makes 65 gallons of ready-to-use cleaner.

73431001	11001	1 gal., Green Seal®	2/cs.
----------	-------	---------------------	-------

F. CRYSTAL SIMPLE GREEN®

INDUSTRIAL STRENGTH CLEANER/DEGREASER

SIMPLE GREEN

Safe, effective and powerful all purpose cleaner/degreaser for critical cleaning applications that demand a fragrance-free solution. Non-toxic, non-abrasive and no caustic fumes. Exempt from OSHA and EPA special handling and personal protection requirements. Approved for use in federally inspected meat and poultry plants, and meets Montreal Protocol Guidelines and FDA requirements for cleaning cosmetics, medical and pharmaceutical environments. Excellent for use in parts washers, pressure washers, floor scrubbers and other mechanized applicators.

73439128	19128	1 gal.	6/cs.
----------	-------	--------	-------

G. Z-VERDANT RTU CLEANER

ZEP

Environmentally preferred, easy-to-use cleaner for use on multiple surfaces and tough soils. May be used on any surface not harmed by water. Easily breaks down common soils making it an excellent everyday cleaner. Contains no harmful solvents or harsh chemicals.

75070100	R06901	1 qt.	12/cs.
75070101	R06935	5 gal.	1/ea.

H. VOC COMPLIANT SOLVENT DEGREASER

ZEP

Environmentally preferred, solvent-based degreaser with d-limonene for use where a water-free formula is preferred. Meets all CA-CARB and OTC requirements.

75070113	R07824	1 gal.	4/cs.
75070114	R07835	5 gal.	1/ea.

Glass Cleaners/Dishwash/Disinfectant/Restroom

GLASS CLEANERS

A. GREEN WORKS™ NATURAL GLASS & SURFACE CLEANER

CLOROX

Clean without leaving anything behind; like harsh chemical fumes or residue. Our natural glass and surface cleaner is the natural way to get a streak-free clean. The plant and mineral-based ingredients work as well as traditional cleaners to cut through filmy residue. Safe on glass, mirrors, appliances, stainless steel and sealed granite.

38380459	00459	32 oz.	12/cs.
38380460	00460	64 oz., Refill	6/cs.

B. AJAX EXPERT® GLASS & MULTI-SURFACE CLEANER

COLGATE-PALMOLIVE

Powerful ready-to-use formula requires no mixing and is convenient to use. Dual solvent system cuts through film and grease fast. Contains ammonia for extra cleaning power. Flash dries quickly without streaking or filming. Use on glass, countertops, mirrors and other hard washable surfaces. Contains compostable surfactants. Bilingual labeling. Ready-to-use bottles include trigger sprayers.

11901320	04195	1 gal., Concentrate	4/cs.
----------	-------	---------------------	-------

C. SIMPLE GREEN® CLEAN BUILDING™ GLASS CLEANER CONCENTRATE

SIMPLE GREEN

Specifically for streak and smear-free cleaning of glass and other reflective surfaces. Concentrate offers economical use dilution, with no added fragrance or volatile organic ingredients that can adversely impact indoor air quality. Also safe to use on plastics. Non-toxic, compostable, non-caustic, and non-flammable formulation. Makes 31 gallons of ready-to-use cleaner.

73431201	11201	1 gal.	2/cs.
----------	-------	--------	-------

HAND LIQUID DISHWASH

D. PALMOLIVE® PLUS DISHWASHING LIQUID COLGATE-PALMOLIVE

Cuts through stubborn grease. Rich, thick formula removes dried-on, cooked-on food. pH balanced. Long-lasting performance makes it an economical choice.

11901702	01410	3.75 oz., Green	72/cs.
11901640	04910	1 gal., Green	4/cs.
11901660	04911	5 gal., Green	1/ea.

E. ULTRA PALMOLIVE® DISHWASHING LIQUID FOR POTS & PANS

COLGATE-PALMOLIVE

Highly concentrated formula tackles the toughest foodservice dishwashing tasks. Ideal for use as a presoak. Great as a general all purpose cleaner, its grease-cutting ability makes it perfect for cleaning tables, countertops, windows, mirrors and more. Ocean Breeze scent.

11900056	40043	1 gal.	4/cs.
----------	-------	--------	-------

LIQUID DISINFECTANT

F. BROAD SPECTRUM DISINFECTANT CLEANER

ZEP

Environmentally preferred, ready-to-use germicidal cleaner and deodorant. Effective on mold and mildew. Conforms to CDC blood borne pathogen procedures for environmental services. Kills Parvo, Tuberculosis, HIV 1, MRSA, and Staph.

75070031	R02301	1 qt.	12/cs.
75070032	R02324	1 gal.	4/cs.

RESTROOM CLEANERS

G. ENVIRO PATROL RESTROOM CLEANER

CARROLL

Use as a high performance washroom general purpose cleaner. Concentrated cleaner for removal of soap scum, mildew, lime, water scale and rust deposits on porcelain, tile, ceramic tile and fiberglass surfaces. Safe for daily use on painted surfaces, porcelain, porcelain enamel, aluminum or stainless steel without etching or damaging them. Dilutes at 1 oz./gal. (1:128) for most applications. This product has been 3rd party Certified by Green Seal® according to GS-40 Environmental Standard. Cold water effective.

30014402	44028	1 gal., Green Seal®	4/cs.
----------	-------	---------------------	-------

Restroom/Deodorant/Soap & Hand Cleaners

A. GREEN WORKS™ NATURAL BATHROOM CLEANER CLOROX

A clean bathroom no longer has to equal harsh chemical fumes. The plant and mineral-based ingredients cut through soap scum, hard water and rust, leaving bathrooms naturally clean. Safe on bathroom counters, sinks, tub, tiles and shower doors.

38380452 00452 24 oz. 12/cs.

B. GREEN WORKS™ NATURAL TOILET BOWL CLEANER CLOROX

Works on tough stains, rust, mineral deposits and hard water. Angled neck design makes cleaning under the rim easier. Since it's made with plant and mineral-based ingredients, it's better for the environment. No bleach or phosphorous.

38380451 00451 24 oz. 12/cs.

C. SIMPLE GREEN® CLEAN BUILDING™ BATHROOM CLEANER CONCENTRATE SIMPLE GREEN

Specifically formulated for cleaning scale and scum types of soils typically found on hard bathroom surfaces. Pink color makes it easily identified when diluted into secondary containers. Safe to use on washable hard surfaces such as ceramic, glazed tile, Corian®, Formica®, grout, faucets and fixtures, porcelain, and cured fiberglass. Non-toxic, compostable, non-caustic, and non-flammable. Makes 21 gallons of ready-to-use cleaner.

73431101 11101 1 gal., Green Seal® 2/cs.

D. NON-ACID DEODORIZING TOILET BOWL CLEANER ZEP

Environmentally preferred, non-acidic cleaner and deodorizer, removes scale, stains, and scum. Use on toilet bowls, tiles, sinks, showers, and bathroom fixtures.

75070006 R00301 1 qt. 12/cs.

E. BIOLOGICAL DRAIN MAINTAINER ZEP

Environmentally preferred drain maintenance product powered by enzymatic activity. Safe for use in septic systems to keep drains free flowing. A biological solution for safe maintenance.

75070036 R02635 5 gal. 1/ea.

LIQUID DEODORANT

F. Z-FRESH ODOR NEUTRALIZER ZEP

Environmentally preferred, highly effective odor neutralizer. Chemically eliminates the source of odors and replaces them with a pleasant clean fragrance.

75070022 R01601 1 qt., Breeze 12/cs.

75070025 R01901 1 qt., Potpourri 12/cs.

75070026 R02001 1 qt., Subdue 12/cs.

MICROFIBER CLEANING TOOLS

F. WYPALL® MICROFIBER CLOTHS

KIMBERLY-CLARK

Microfiber cloths with Microban® protection are durable, remarkably absorbent, and environmentally friendly. No chemicals needed. Cleans virtually any surface; wet, dry, or damp. Absorbs eight times its weight in liquid. Can be laundered 300 times. Color-coding helps reduce cross-contamination.

15403620 83620 15 3/4" x 15 3/4", Blue 24/cs.

15403630 83630 15 3/4" x 15 3/4", Green 24/cs.

15403980 83980 15 3/4" x 15 3/4", Red 24/cs.

15403610 83610 15 3/4" x 15 3/4", Yellow 24/cs.

G. GLASSIC™ MICROFIBER CLOTHS

CCP

Ideal for cleaning soap, grease, or finger prints from windows, mirrors, and metal surfaces. Leaves a streak-free finish. Can be laundered five times more than 100% cotton towels.

27600228 E222022 10" x 7", Green, Mitt 12/cs.

27602222 E222000 12" x 12", Green, Cloth 12/cs.

H. SUPREMO™ MICROFIBER CLOTHS

CCP

All purpose cleaning cloth. Great for dusting and cleaning all types of surfaces.

27602210 E221000 12" x 12", Blue 12/cs.

27602211 E220000 12" x 12", Green 12/cs.

Microfiber Cleaning Tools

A

A. MICROFLEX™ DUSTER & REFILLS

CCP

Flexible, thin foam frame allows for effective cleaning in tight, hard-to-reach areas. Frame accepts a hand held handle or either one of our Pro Flat mop handles for high area cleaning. Microfiber refill for durability and long product life. Simply rinse away dirt with water after every use. Duster refills available separately.

27602907	E224100	2" x 22", Refills	3/ea.
27606025	E224000	2" x 27", Complete	1/ea.

B

B. ERGOWORX™ TOUCHLESS MICROTEK CLEANING SYSTEM

CCP

Designed to fit all the most popular plastic janitorial carts made, including those manufactured by Continental (old and new styles), RCP, Impact/White, Akro-Mils and most Chinese imports. Also designed to fit all the most popular stainless steel janitorial carts made, including those manufactured by Geerpres® and Royce-Rolls. The ErgoWorx™ Solution and Discharge buckets are made from Derma-Tek™, non-porous plastic so they are easy to clean and help maintain a professional appearance. The Auto-Discharge mop frame is made from durable glass-filled nylon. Non-ferrous, so it is safe for use in areas with MRI equipment and will not rust or corrode. The patented Auto-Discharge Mop Frame eliminates the need to touch the soiled/contaminated Microfiber mop head, preventing cross-contamination. System includes: (1) solution bucket w/perforated screen, (1) discharge bucket w/aluminum discharge rod and (1) auto-discharge microfiber mop frame. The Microfiber Trolley can be added to the SYS-5 to create a mobile cleaning system that is both compact and efficient. The 3" non-marking, all swivel casters provide finger touch mobility, ideal for tight hallways and small rooms. The MFT-5 is designed to accommodate common cleaning tools including a wet floor sign, microflex duster, wipes and RTU trigger sprayer bottles. Safe for use in areas with MRI equipment and will not rust or corrode.

27602997	C104026	5" x 26", Red	10/cs.

Super Pro Finish Mop Microfiber Refill

Microfiber finish flat mop is looped end and constructed of high wet modulus rayon blend yarn that provides quick, controlled liquid release. The finish flat mop will cover a 20" wide swath. Unlike conventional finish mops, 100% of the floor finish goes onto the floor along with full contact of the refill to the surface allowing better productivity and less chemical wasted in the mop. Should be rinsed after every use.

27602980	C106020	5" x 20", Light Blue	6/cs.
----------	---------	----------------------	-------

The Aggressor™ Microfiber Scrubbing Refill

Innovative combination of microfiber yarn and synthetic stiff brush fibers. Designed to remove debris stuck to the floor that normal "yarn only" microfiber flat mops cannot.

276001261	C109020	5" x 20", Blue/White	1/ea.
27600126	C109020	5" x 20", Blue/White	10/cs.

D

D. MICROFIBER PRO™ FLAT MOP HANDLE

CCP

Made of lightweight, long-lasting aluminum that will not rust or corrode. Twist lock mechanism allows extendable handle to adjust from 39" to 60"

276071401	C714000	39" to 60"	1/ea.
27607140	C714000	39" to 60"	10/cs.

Microfiber/Wet Mopping/Compostable Liners

A. MICROFIBER PRO II™ FLAT MOP FRAMES

CCP

Lightweight design allows for dramatic improvements in labor productivity. Trapezoid head effectively cleans corners and edges. 360 degree swivel attachment for maneuvering in tight areas. Handle locking clip to secure handle to frame connector. Designed to complement our line of microfiber refills.

276071701	C717018	4 3/4" x 18", Blue/Silver	1/ea.

17707589	7588BLUE	35 qt., Blue	1/ea.

COMPOSTABLE LINERS

E. COMP-LETE™ COMPOSTABLE BAGS

FORTUNE PLASTICS

Offer superior strength and compostability. BPI's "Compostable Logo" is awarded to products that meet ASTM D6400, assuring end users and composters that the bags will biodegrade swiftly and safely during municipal, commercial, or household composting. Will not leave plastic residues in the finished compost. Made from MATER BI™ material. Ideal for collecting food scraps and yard trimmings for composting. Replacing non-degradable trash bags with compostable ones helps composters reduce processing, separation, and disposal costs while keeping consumers collection bins clean, which encourages participation.

13800092	BIO3980R	33 gal., 30" x 39", Natural, .80 MIL	250/cs.
13800088	BIO4685R	40-45 gal., 40" x 46", Natural, .85 MIL	200/cs.

F. BIOTUF™ COMPOSTABLE BAGS - LIGHT GREEN

HERITAGE BAG

Tough on trash, easy on the environment. Superior strength designed for pre- and post-consumer food waste diversion programs. Excellent puncture and tear resistance. Proven lifting strength and load capacity. Odor control, dissipates moisture. Photodegrades if left by roadside. 100% ASTM D6400 Certified degradable, 100% compostable.

Matting

MATTING

A. CLEAN STEP SCRAPER MATTING

MILLENNIUM MAT

All-rubber mat ideal for any outside entryway. The superior molded tread aggressively scrapes shoes clean of dirt and grime and traps it into the base of the mat. Available in black only. Certified slip-resistant by the National Floor Safety Institute.

C5440150	14030500	3' x 5', Black	1/ea.
C5440151	14040600	4' x 6', Black	1/ea.

B. ECOGUARD® INDOOR MATTING

MILLENNIUM MAT

Made from 99% recycled material, EcoGuard is the most eco-friendly and ecologically responsible mat ever. Carpeted surface is made from 100% post-consumer PET plastic bottles. The all-rubber backing is made from used tires, preventing landfill waste.

C5440200	EG020304	2' x 3', Charcoal	1/ea.
C5440201	EG030504	3' x 5', Charcoal	1/ea.
C5440202	EG031004	3' x 10', Charcoal	1/ea.
C5440203	EG040604	4' x 6', Charcoal	1/ea.
C5440205	EG030508	3' x 5', Green	1/ea.
C5440206	EG031008	3' x 10', Green	1/ea.
C5440207	EG040608	4' x 6', Green	1/ea.

C. FLEX STEP ANTI-FATIGUE MATTING

MILLENNIUM MAT

Reduces fatigue and discomfort while increasing productivity. Air domes offer flexible and comfortable support, and low-profile beveled edges reduce the risk of tripping. Accepted by the American Podiatric Medical Association. Certified slip-resistant by the National Floor Safety Institute.

C5440300	24020300	2' x 3', Black	1/ea.
C5440301	24030500	3' x 5', Black	1/ea.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

R3® CERTIFYING ORGANIZATIONS

When customers ask questions about green products, they expect their distributors will make sure the products they offer are certified by a credible organization. Going green is offering products that have been certified environmentally preferable by an independent third party. Nationally there are dozens of organizations that set standards or certify products but only a select few are accepted by the majority.

GREEN SEAL® is a 20 year old non-profit organization (established in 1989) that has become the largest ecolabeling organization in the country. Green Seal® uses a multi-attribute system to certify products, looking at the entire life cycle of a product from the raw materials used to make it, to whether it is recyclable or disposable. The product standards it has developed were created with input from public, industry, academia and government agencies. Further, these standards must meet U.S. Environmental Protection Agency (EPA), International Standards Organization (ISO) and other third party certifier requirements. Green Seal® funding comes from foundations, application and certification fees. They have no affiliation with any government program and do not accept donations from manufacturers.

Green Seal® has always certified products and has now begun certifying cleaning services by awarding their Environmental Standard for Cleaning Services (GS-42). To qualify a building, the service contractor must use green chemicals and equipment, implement green cleaning procedures, provide employee training, communicate with building owners and occupants and establish a building-specific green cleaning plan. GS-42 can be used for certification and verification. It provides incentive to service providers who can advertise themselves as green certified and serve as a reliable tool for purchasers to determine which service providers are environmentally responsible.

ECOLOGO™ was founded in 1988 by the Canadian government and now operates as part of the environmental marketing firm Terra Choice. EcoLogo™ sets environmental criteria and Terra Choice helps market products with EcoLogos™. There are 200 product categories EcoLogo™ certifies. Their advisory board, which develops and updates criteria, consists of environmental advocates, consumer groups, professional purchasers, regulators, industry and environmental academia. Standards are based on International Standard Organization (ISO) 9000 (quality management) and 14000 (environmental aspects) series.

EcoLogo™ is what ISO calls a type-one ecolabel, meaning it is life-cycle based and multi-attribute. They consider energy, toxics and other factors that represent potential environmental impact of the product.

Their newest certification is for disinfectant cleaners (CCD-166). Disinfectants, as a category, have definite environmental disadvantages which has kept groups from certifying them as green. However, the EcoLogo™ emblem will not appear on disinfectants as the EPA prohibits such products from being labeled or marketed as green, but building service contractors can use products that qualify under CCD-166 when facility managers require disinfectants have a green certification.

Also new from EcoLogo™ is a program of reduced scrutiny for cleaning formulations made with ingredients listed on the CleanGredients™ database maintained by the EPA and the Green-Blue Institute. The change means products that use ingredients in the database are not re-tested before certification.

GREENGUARD Environmental Institute (GEI)'s mission is to improve indoor air quality. Originally focused on building products and materials (flooring, furniture, air filters and paints) GEI, in 2006, entered into a partnership with JohnsonDiversey whose products were the first to be Greenguard certified. The Greenguard Certification Program for Cleaners and Cleaning Systems was developed from their other standards as well as on criteria developed by the EPA and Centers for Disease Control and Prevention (CDC).

GEI's cleaning certifications have two levels – Greenguard and Greenguard for Children and Schools – the latter includes not just GEI's rigorous set of standards but recognizes different building types have different needs.

Greenguard analyzes a product's tangible effect on air quality. Their third party test lab uses a chemical in a controlled environment and then samples the air to determine what and how much the product emits into the air after application. Chemical emissions from cleaning products are measured relative to their effect on indoor air quality. The program covers everything from general cleaners to institutional cleaning systems, aerosol products and toilet cleaners.

GREEN LABEL is the certification from the Carpet and Rug Institute (CRI). Their original (1992) testing program focused on new carpeting and in 2000 the organization introduced the CRI Green Label Vacuum Cleaner Testing Program. This standard tests how well a vacuum removes soil and contains it within the vacuum without spewing back into the environment. The CRI then developed a Seal of Approval testing program for cleaning solutions (spot removers, pre-sprays and in-tank products) and deep cleaning extractors that meet high performance standards. CRI also has a program for building service contractors; those who use extractors and chemicals with their SOA certification are allowed to display an SOA Service Provider decal.

LEED-EB is the Leadership in Energy and Environmental Design – Existing Buildings, a U.S. Green Building Council program. LEED-EB does not certify products or processes as green; rather they have a program that lists 80 possible points a building must earn to receive certification. 12 of these points are obtained through cleaning products or practices that are green.

Buildings are reviewed by the LEED-EB in-house review team and a group of U.S. Green Building Council trained consultants, and if they meet the standards recognition is awarded.

GREENSTAR CERTIFIED began in 2005 after a review of existing ecolabeling programs such as the Environmental Choice Program, Nordic Ecolabeling's Swan Program and the Australian Environmental Labeling Association's Environmental Choice were completed by the Greenstar Certified staff. This led to the development of a product labeling and certification program that included a certification process, regulations, standards and application instructions titled GCCP01. The GCCP01 standards are posted on the Greenstar Certified Website [HYPERLINK "http://www.greenstarcertified.org" www.greenstarcertified.org](http://www.greenstarcertified.org).

ENVIRONMENTALLY PREFERRED RATING is a pilot program developed by the California Film Extruders and Converters Association. It is the first environmental accreditation for the plastics industry and focuses on the operations of plastic processor facilities. Environmentally Preferred Rating uses an oversight committee made up of members from printing, colorants/additives, recycled resins, technology, manufacturing and science/academia sectors. The committee establishes standards, revises their program and discusses issues during the auditing process.

DESIGN FOR THE ENVIRONMENT is the U.S. government's vehicle for the promotion of green practices. Working under the Office of Pollution Prevention and Toxics (an office of the EPA) the DfE Formulator program addresses cleaning products. However, the DfE does not offer certifications; rather they create "partnerships" with companies that commit voluntarily to incorporate environmental considerations into their design processes. Manufacturers submit a product's entire chemical formulation to DfE and the program uses a group of EPA aquatic toxicity experts, human health experts and green chemistry experts to review a breakdown of the product as prepared by a qualified third party. If the company's products are deemed green enough, DfE enters into a "partnership" with the manufacturer.

Also under their sponsorship is the CleanGredient™ database. This online subscription service provides a database of institutional and industrial cleaning ingredients that feature green formulations. At this time the database includes surfactants for hard surface and carpet cleaning, laundry and hand dish soaps. DfE is adding solvents, fragrances and colorants as well.

Most likely building service contractors will not need to access the CleanGredient™ database; however, they should be aware it exists as government agencies and purchasing groups are instituting green purchasing programs that require the use of DfE recognized chemicals.

GREENBLUE is another non profit organization working with industry coalitions to develop tools and practices. They work closely with the Design for the Environment (DfE) to maintain the CleanGredient™ database – which is a one stop shop of ingredients for green formulations.

HOSPITALS FOR A HEALTHY ENVIRONMENT is an organization that released a document titled "10 Step Guide To Green Cleaning Implementation" that outlines steps hospitals can take to green their operations. As healthcare must focus on maintaining infection control standards and high levels of hygiene (and there are no green certified disinfectants), Hospitals for a Healthy Environment promotes the use of green certified products in other areas such as glass cleaners, floor strippers, vacuum cleaners and filters and other products that do not deal with the areas of disinfection or infection control.

HEALTHY SCHOOLS CAMPAIGN released its "Quick and Easy Guide to Green Cleaning In Schools" as a national initiative to change the way schools clean. It outlines five steps a school can take to establish a green cleaning program. Healthy Schools Campaign does not certify products or processes but relies on others such as Green Seal®, EcoLogo™, CRI's Green Label Program and EPA standards. They take a "holistic" approach to greening schools and search for comprehensive standards that apply to a number of products.

THE GREEN CLEANING NETWORK was formed in 2006 as a 501-C3 not-for-profit group to help eliminate confusion about green cleaning. Among the founding members are The Healthy Schools Campaign, Hospitals for a Healthy Environment, The U.S. Green Building Council, International Executive Housekeepers Association and the Responsible Purchasing Network. The group's intention is to bring concerned parties into the network and share information on green cleaning. It will provide a place where issues faced by the cleaning industry can be addressed, and be a venue for concerned parties to discuss the credibility of specific industry organizations. They will not certify anything.
